POST-GRADUATE MASTER OF ARTS IN ADVANCED ARCHITECTURAL DESIGN

## Economies of Space - 2006

Through architecture and architectural space runs a constant, pulsing current of life. As much as architecture is regulated by the torrential flows of information, matter, money and people, it conversely also serves to regulate the same flows. The intensity and nature of this condition change as we speak: capital and cultural interests appear the same and are different; spaces are branded and brands harbour spaces. New forms of technology change the structure of the urban fabric; the material rigidity of yesteryear is a fluid medium coded with bits of information.

The nature of this dynamics is *the Economies of Space*, a realm that relentlessly must be probed, examined and questioned. It encompasses all those flows that pass through architecture and that our built environment in turn regulates.

**Prof. Mark Wigley, Ph.D** Deutsches Architektur Museum, Frankfurt  
[ **Dean's Honorary Lecture** ] 18:00

The Architecture Class of the Städelschule (and its dean, Ben van Berkel), present the Dean's Honorary Lecture. The Dean's Honorary Lecture is held in honor of a person who has made extraordinary contributions to the field of architecture and in celebration of the profession and academic fields in general. For the first Dean's Honorary Lecture, the Architecture Class and the Museum are proud to present:

Over the last two decades, Mark Wigley has risen to be one of the foremost contemporary theorists in architecture. His writing is highly influential, and he has taught at a number of renowned schools in America and Europe. Since 2004, Wigley has been the dean of the Graduate School of Architecture, Planning and Preservation at Columbia University, New York. Mark Wigley has also been a central contributor to the programme of the Architecture Class for a number of years.

13-23\_jul\_06

**DesignThesisExhibition** Deutsches Architektur Museum, Frankfurt

On Thursday, July 13, in the Städelschule Aula, guests and critics review the work of the *First Year Group* in the Architecture Class. On Friday, July 14, in the Deutsches Architektur Museum, the *Design Thesis-Proposals* for a research and edutainment campus in Reykjavik, Iceland, are examined and discussed. Both events begin 10:00. The review of the *Design Thesis Proposals* coincides with the Architecture Class exhibiting the thesis projects in the Deutsches Architektur Museum. The official opening of the exhibition is on June 13, 17:00.

13-14\_jul\_06

**EndOfYearReview**

[ **Review First Year** ] 13\_jul\_06 / 10:00

Städelschule Aula

[ **Review Diploma** ] 14\_jul\_06 / 10:00
